

The optimal hotel room?

After 15 years' experience with hotel operations, and developing the "Apartment Hotel" concept, Trondheim Leilighetshotell can now offer its guests a unique experience. We now have the only hotel in Trondheim which can offer the "optimal hotel room" to our guests. This is comfort that has to be seen and experienced.

The hotel room comprises a lounge with a leather suite, dining room and 32" widescreen TV.

The room has a very well-equipped kitchen with utensils for preparing and serving food. The fitted kitchen has integrated appliances such as a Miele dishwasher, Miele oven with Miele induction hob, Whirlpool microwave with pizza and browning functions, fridge and freezer.

Bedroom with made-up Continental bed and wardrobe with towels, iron, ironing board and hairdryer.

Bathroom with downlights, washing machine and tumble-dryer. Separate toilet.

Entrance hall with downlights and video entry-phone system. (On a TV screen, the guest can see who has rung the doorbell).

The room has its own ventilation system for heating and heat recovery, air purification and fresh-air intake.

With all the advantages mentioned above, our hotel guests enjoy an experience completely different from the usual cramped hotel room. Our guests have much more space and freedom to use their accommodation. The hotel offers:

- Free coffee/tea 24 hours a day
- Free parking
- Free laundry
- Free cable TV on 32" widescreen TV
- Free broadband Internet
- Free bicycle hire.

Our housekeeping staff clean the rooms every day, and change used towels and bed linen as needed. The hotel offers breakfast and other food and beverages.

The rooms are specially adapted for people who suffer from asthma and allergies.
